

PGroup : Precision Group

Precision genetic test laboratory is the backbone of Precision Group. It provides the Group with fast, excellent and precise test results, catering the need for medical industry, education industry and parents as well as biotechnology industry. 精准基因的实验室是Precision Group的业务骨干，它为集团提供快捷、优质及精准的检测结果，以满足医疗界、教育界和家长，及生物科技界的需求。

Advanced technology for a healthy and happy future

Precision Genomic (it's a Standard)(www.pgenomic.com)has been positioned in a leading status in the screening service industry.Through DNA Analysis, parents-to-be can understand doetus development and genetic information. Not only trusted by Hong Kong's medical industry for its fast, professional and precise prenatal test, it is also supported by doctors from Macau, southeast Asia and Middle-East.

Present genomic (it's a Gift)(www.presentgene.com)provides advanced and high-technology DNA test service. Health is priceless. Next Generation Sequencing technique improves sensitivity and precision of the test.Through advanced technological disease screening, patients can realise health risk as soon as possible, so to improve lifestyle and arrange health management for a healthier future.

PSY GENE (it's a Compass)(www.psygene.hk)functions as a compass giving parents the direction on nurturing kids. Swiss DNA sequencing technology is adopted to test on kids' genetic personality. Through the detailed report and psychologist explanation, parents can understand children's potential and personality,

尖端科技 拥抱健康快乐的未来

精准基因 (it's a Standard) (www.pgenomic.com)专门从事无创性产前测试及跟进医生的转介检测个案，在业界处于领导地位。透过DNA分析，帮助准父母了解胎儿的健康及遗传信息。快捷、专业及精准的无创产前检测服务不但获得香港医疗界的信赖，更得到来自澳门、东南亚及中东的海外医生支持。

柏思基因 (it's a Gift) (www.presentgene.com)提供尖端前卫的DNA检测服务予客户。健康就是一份无价的礼物。次世代基因定序技术能提高检测灵敏度及

so can make certain arrangements and devote appropriate resources to develop kids during golden age (0-6) of children development. Both genetic factors(50%) and nature factors(50%) form one's personality. As long as parents cultivate children at the golden prime time based on the result of genetic personality test, children will soon be shone in their growing path. On top of that, parents can also assist children to choose suitable subjects, career and even partner through TOPGene, pating a happier and easier life path.

准确度，客户可透过检测结果尽早发现健康风险，改善生活方式，做好健康管理，迎接更健康的未来。

心格基因(it's a Compass) (www.psygene.hk)就像指南针给予父母栽培孩子的指引。检测孩子的人格基因是采用瑞士科研先进的DNA定序技术，家长能通过检测报告及儿童心理学家的讲解可得知孩子的天赋潜能及人格，从而在孩子0至6岁的黄金培育期安排合适的教育方式，正确投放资源，让孩子发展无限潜能。人的性格百分之五十来自父母的基因遗传，另外百分之五十靠后天培养，父母只要把握栽培孩子的黄金期，透过科学精准的检测工具因材施教，让孩子展翅高飞的道路指日可待。再配合顶尖基因测试，更能协助孩子选择合适的学科、职业，甚至伴侣，他们的人生道路会走得开心，走得轻松。
